

Atlantis

from Superstar, dgeek,
Aries' son, today's your day
enjoy, relax, laugh

Rising
From loyal squirrels
to a wise and snarky king...
Happy Birthday, Nut!

From amararti,
dpainter, Pixel, Netty
Icarus, Shawna

to
ankhmites and Becky
and of course scifi lemon,
haiku poets all

the story so far ...

*the challenge offered
to fly through unexplored skies
cannot be ignored*

*salvation this time
surface of empty ocean
breached by gleaming spires*

*to thread the needle
should have been routine now lives
hang in the balance*

*something harmless, small,
to fuel a man's obsession...
and a new courage*

*our new friends are close
new enemies seem closer
should we link the two*

*bird falls from the sky
treasure tempts to lead astray
never felt so old*

*not all that they seem
facade covers so much more
hid 'neath secret doors*

*folly of the people
weapon hidden inside them
their decision made*

*misty illusions
false reunions, where are we?
live to try again*

*evil incarnate here
with elemental force
threatens our city*

*Truth in a mirror
My life restrains his desire
My death is my gift*

*a calm in the storm
slaughter fear uncertainty
city in peril*

*a frightening death
slow, but sudden, right on time
cured for some too late*

*you cannot have her
not while I draw breath nor shall
engulfing ocean*

*Sleeping Beauty wakes
deja vu heroism
doom but all safe now*

*a perfect lady
mysterious, beautiful
much more than she seems*

*another eden
desire for companionship
leaves vulnerable*

*trust misplaced
our dream of power
snatched away*

*fears, suspicions reign
nightmares frighten, stir self-doubt
blessing in disguise*

*loved ones far away
cannot know all we saw and
did before we died*

*not the first nor last
tragic noble sacrifice
made to buy us time*

maybe I'm crazy
but someone has to do it
I guess it's goodbye

thought I had lost him
sometimes, death comes way to close
for now, luck wins out

a killer lurking
one to fight with brains not brawn
a page from Sheppard's book

was lost but now found
stronger, faster, but yet less
now one lost again

a solo player
your thoughts are no counterpoint
inharmonious

trapped on an island
cruel and unusual
now the great escape

trust the sacrifice
at the altar of ego
not infallible

vulnerable child
but do not be deceived for
her bite is deadly

never felt like this
remarkable, yet scary
like a bad, bad dream

eternal
lost in a bubble
where are you?

a call from my home
moving through the dark after
centuries asleep

lost, alone, afraid
wisdom comes to comfort me
it's been a bad day

now he thinks I'm smart.
he's gonna get it from me!
damn Canadian ...

a warning from home
explosive situation
force crossing a line

noble lords rule serfs
misery for those who toil
rebellion comes

Peter Pan bids us
battle pirates in the sky
and we must follow

rescue just in time
grant true lovers a farewell
headed for divorce

timidity lost
raw power surges through me
enemies vanquished

a treasure offered
a team missing or slaughtered
a power toppled

double helix morphs
evil stripped away it seems
too good to be true

a group of people
trapped at the end of a world
best way out is through

can we believe them?
new friends with everything we need
wolf in sheep's clothing

in desperate straits
cocoon hatch and migrate back
must follow the plan

you'd think I would learn
meddling with people this way
people I should save ...

See the world a new
Should have listened from the start
So don't remind me

corrupted offspring
of an ancient race - cold fire
of hatred fuels them

harsh reality
life is a waking nightmare
yearning for return

the home I once loved
ghosts memories violence
time to finish it

sister sees double
one of these is not quite right
but it's a nice change

how can he not know?
it isn't freedom, it's fear
not me, not at all

I had never thought
to be saved by such a one
neither had my friends...

how can we fight it
what we fear the most turns one
against the other

they are in our minds
so plant a seed - a falsehood
to deceive them all

I had to leave to
realize that I belong
this is my true home

Doctor Dolittle
questions rise in nightmares
helios the key

the last thing needed
something to feed his ego
well - he lost the bet

familiar faces
one conniving, one evil
get what they deserve

playing with their lives
McKay and Sheppard face off
it's SIMS Atlantis

actions have impact
make amends and discover
you are not a god

at the end floating
in darkness inspiration
re-awakens self

just another day
mistakes, choices, the results
but why? why this day?

realisation dawns
friendship lost forever, I
face the day alone

survival of sorts
hollow victory for one
now shepherd them home

new friends go missing
through mazes to new terror
danger still to come

a very deep sleep
literally, not unlike
a watery grave

everyone's below...
so who's running the city?
Heightmeyer and Lorne

offense from afar
poking a sleeping dragon
our enemy's back
